Plant Bailey's EVERGREENS

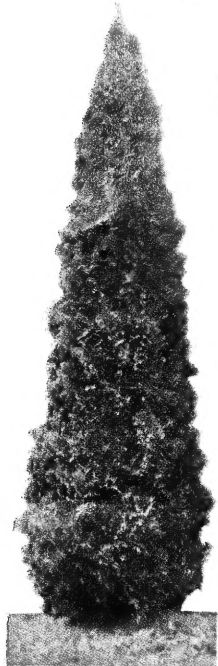

Bailey's grow their own evergreens. This is important. You can be sure the evergreens we grow are hardy.

Turn to Inside Page for Full Descriptions of All Evergreens We Offer.

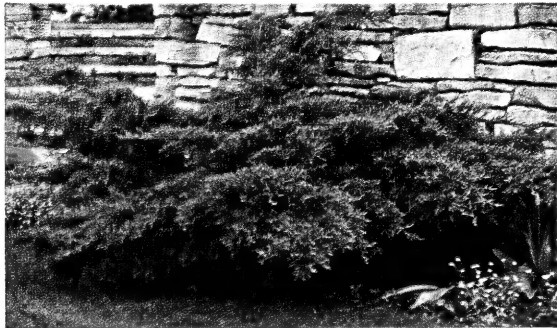

Sorry, we do not accept orders for B&B evergreens for shipping, due to high packing cost and risk of delay in transit.

Juniper, Pathfinder

F. J. Grootendorst

The Very Hardy RUGOSA ROSES

(THE ROSES OF THE NORTH)

F. J. Grootendorst. Bright red, fringed flowers; large clusters freely produced throughout the growing season. Each \$1.50; 3 for \$3.90.

Hansa. Double, beautiful violet-red flowers of large size; freely produced. Hardy and dependable. Each \$1.50; 3 for \$3.90.

Pink Grootendorst. Double flowers of clear pink. Everblooming Baby Rugosa type blooms. Each \$1.50; 3 for \$3.90.

Harrison's Yellow. Yellow flowers of good quality. Each \$1.50; 3 for \$3.90.

Beautiful Double Flowering Almond

ALMOND, Double Pink Flowering

4 to 5 feet. Branches thickly studded with double pink Rose-like blossoms in spring before the leaves appear. Grows best in protected location. See shrubs on inside page for prices.

HYDRANGEA ARBORESCENS GRANDIFLORA

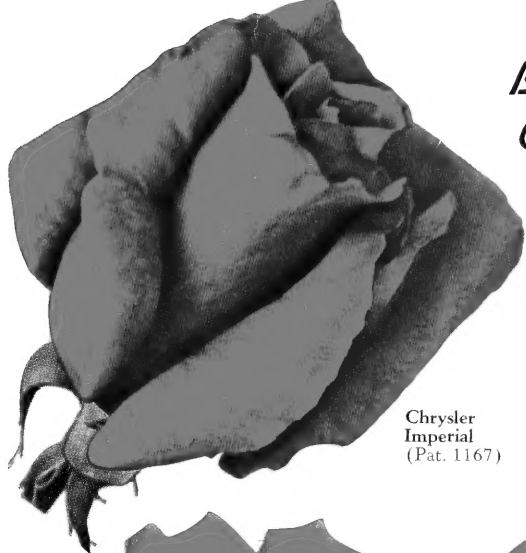

The large clusters of white flowers of this shrub are somewhat more flattened than those of Peegee. It blooms profusely in July and early August. It is useful in borders and low foundation plantings. It is hardy and well adapted to shady locations. Height 4 feet, spread 4 feet. See inside pages for prices.

ALPINE CURRANT

Plan to plant a hedge of Alpine Currant, the most beautiful dense growing, dark green hedge for the North. Note—see inside pages for Hedge Prices.

Old-Fashioned → BLEEDING HEART

The flower that everyone loves. Strong plants that will bloom this year. **85c each; 3 or more, 75c each.**

Zabeli Honeysuckle

Bleeding Heart

ZABELI HONEYSUCKLE

Here is a vigorous, upright Honeysuckle with attractive red flowers. It has bright red berries in late summer to autumn. It is hardy and does well in heavy shade. Height 8 to 10 feet. See inside page for prices.

SELECTED No. 1 GRADE EVERBLOOMING ROSES

Pictured Above

- 1. Etoile de Hollande.** Velvety dark crimson flowers with a true Rose perfume. Fine form, long cutting stems and a vigorous grower. **\$1.50 each; 3 or more, \$1.30 each.**
- 2. McGredy's Ivory.** A creamy white Rose that starts with long, pointed buds on extra long stems. Has an intense damask fragrance. **\$1.50 each; 3 or more, \$1.30 each.**
- 3. McGredy's Scarlet.** Excellent form, grows vigorously, and produces an abundance of scarlet blooms. **\$1.50 each; 3 or more, \$1.30 each.**
- 4. McGredy's Yellow.** Exquisite buds and flowers of bright buttercup-yellow. Very sturdy plant habit. **\$1.50 each; 3 or more, \$1.30 each.**
- 5. Picture.** Deep pink. Vigorous, healthy, upright plants are free with beautifully modeled buds and fragrant blooms of deep pink on strong, wiry stems. **\$1.50 each; 3 or more, \$1.30 each.**

SELECTED No. 1 GRADE EVERBLOOMING ROSES

Not Pictured

Christopher Stone. Scarlet—a beautiful Rose. One of the choicest reds. **\$1.50 each; 3 or more, \$1.30 each.**
Countess Vandal. A vigorous, prolific bloomer. Pink and yellow shades. **\$1.50 each; 3 or more, \$1.30 each.**
Poinsettia. One of the most brilliant shades in red Roses; referred to as poinsettia-scarlet in color. Has long buds, nicely petaled. **\$1.50 each; 3 or more, \$1.30 each.**
President H. Hoover. Large, multi-colored blooms of yellow, cream and flame; deliciously fragrant. Magnificent grower. **\$1.50 each; 3 or more, \$1.30 each.**
Talisman. Exquisitely formed buds of orange, scarlet and gold are borne on long stems. Free bearing and very fragrant. **\$1.50 each; 3 or more, \$1.30 each.**

LARGE FLOWERING CLIMBING ROSES

Blaze. Pictured on front page. **\$1.50 each; 3 or more, \$1.30 each.**
Climbing Primrose. A hardy yellow climber. **\$1.50 each; 3 or more, \$1.30 each.**
New Dawn. Continuous flowering shell-pink. Vigorous, most hardy climber. **\$1.50 each; 3 or more, \$1.30 each.**
Paul's Scarlet Climber. Color a vivid scarlet; flowers produced in clusters on much-branched canes. **\$1.50 each; 3 or more, \$1.30 each.**
White Dawn. New, everblooming hardy white Rose. Bred from New Dawn, it is as hardy, healthy, strong growing and free blooming. **\$1.50 each; 3 or more, \$1.30 each.**

BUY DIRECT FROM THE GROWER BY MAIL OR AT THE NURSERY

YOU ARE INVITED TO VISIT OUR NURSERIES

Our nursery is located just off Highway 61, 10, and 100 at the city limits of St. Paul, across the river from South St. Paul. We invite our customers to come to the nursery to select their stock. We assure you, however, that mail orders will receive our personal attention and your stock will be selected with utmost care.

Plant FLOWERING SHRUBS Early This Spring for Next Summer's Bloom

ALMOND, Double Flowering. Pictured on front page.

BARBERRY, Redleaf. Deep red leaves that last throughout the summer. The color is best when the shrub is grown in full sunlight. It is also used as a hedge. Height 2 to 3 feet.

BARBERRY, Thunberg. This low shrub is useful in foundation plantings. The bright green leaves turn a brilliant red in autumn, attractive red berries in the fall and winter. It is hardy and will tolerate shade.

BUCKTHORN, Common. If a heavy, impenetrable barrier is desired, this shrub will meet your needs. It may be trimmed as a formal hedge; 3 to 8 feet. It is not recommended for rural areas because it is host to oat rust. See Hedging for prices.

COTONEASTER, Peking. The leaves are dark and glossy. It is completely hardy and thrives on poor, rather dry soils. Height 6 to 8 feet. A very desirable hedge. Also offered in hedging grade.

CRANBERRYBUSH, Highbush. Rich colored foliage, white blossoms in July followed by bright red fruit in September. Height 7 to 8 feet.

CURRENT, Alpine. Pictured as a hedge on back page. Here is an especially useful landscape shrub, upright and compact. The leaves are small and dark green. Will grow in a variety of soils and partial shade. It is thoroughly hardy. Height 4 feet, spread 3 feet. The outstanding dwarf hedge. See picture of Alpine Currant in color.

DOGWOOD, Bailey. Bright red twigged. Height 6 to 8 feet.

DOGWOOD, Variegated. Bright red twigged, leaves green and white striped. Height 5 to 6 feet.

ELDER, Golden. Bright golden yellow leaves mark this shrub throughout the summer. It is hardy and rapid growing. Height 6 to 8 feet.

EUONYMUS alatus (Winged Euonymus). Yellow flowers, May-June. Interesting corky bark. Leaves turning brilliant crimson in autumn. Height 10 to 12 feet.

HONEYSUCKLE, Tartarian. This shrub is excellent for screens, backgrounds and specimens. The flowers are pink to white, appearing late in May. Bright red berries offer color in autumn. The shrub does fairly well in heavy shade. Height 8 to 10 feet.

HONEYSUCKLE, Zabel. Pictured on color page.

HYDRANGEA, Snowhill. Pictured on color page.

HYDRANGEA, Peegee. Immense white, conical bloom heads, 12 to 18 inches long, in August and September. When fully developed, flowers turn to pink and bronze and are often cut for winter house decoration.

LILAC, Purple. Old-fashioned old favorite.

LILAC, Persian. Beautiful lavender flowers appear late in May. It is hardy. Height 6 to 8 feet. We also offer Red Persian Lilac *Rothomagensis*.

MOCKORANGE, Golden. This compact shrub has brilliant yellow foliage. A mass of white flowers in May and June. It seldom grows over 4 feet tall; useful in borders, specimen and foundation plantings.

NINEBARK, Dwarf. Heavy, dark green foliage. Height 3 to 5 feet. Grows very well in shade.

POTENTILLA fruticosa. Dwarf growing, foliage fine textured, bright yellow flowers June till late fall.

SNOWBALL. This shrub has stood up well through the years. Its large, round clusters of white flowers are a familiar sight in May and June.

SNOWBERRY, Red. A very fast growing shrub commonly called Coralberry. It does very well in the shade. The flowers are coral-red.

SNOWBERRY, White. Clusters of large, pure white berries are of striking attractiveness from September through winter. It is very hardy and does well in fairly heavy shade.

SPIREA, Anthony Waterer. Masses of crimson flowers appear in July and continue irregularly throughout the summer. It is hardy and does well in shade.

SPIREA Froebeli. Habit of growth same as Spirea Anthony Waterer but stronger. Pink flowers.

SPIREA Van Houttei. Many admirers know this shrub as "Bridal Wreath." The branches are covered with white blossoms in mid-spring. It is useful in shrub borders, foundation plantings and hedges. It is thoroughly hardy. Height 6 to 8 feet.

TAMARIX, Kashgar. Feathery, bluish gray foliage gives this shrub an unusual airy charm. It bears long panicles of bright pink flowers in July and August. Height 12 to 15 feet.

FRENCH LILACS

(Pictured on color pages)

Bailey's are growing the finest varieties only, with enormous spikes. Choice, select colors

Charles Joly. Double red.

Charles X. Single red.

Pres. Carnot. Double pink.

Michael Buchner. Double pink.

Vines Provide Abundance of Flowers . . . Spring, Summer and Fall

BITTERSWEET. For winter bouquets. Several vines planted close together will fruit more heavily than one.

IVY, Boston. The small, dark green leaves are held close to the wall to form a tight screen. Leaves turn a fine shade of red in autumn.

IVY, Engelmann. This useful climber is a well known vine. The foliage turns a bright scarlet in the fall. The vine is hardy, vigorous and fast growing.

HONEYSUCKLE, Scarlet Trumpet. A very popular climbing vine. Dark green foliage and scarlet flowers throughout the summer.

HONEYSUCKLE, Everblooming. A delightful new vine, fragrant, flame-coral trumpets lined with creamy gold. Blooms abundantly from May until frost. It can be clipped to form a neat hedge, a striking specimen shrub, or allowed to grow naturally to climb a trellis.

PRICES OF STRONG, 2-YEAR-OLD VINES (See Clippings offering on color page.)

IVY, Boston	1.25
IVY, Engelmann	1.00
HONEYSUCKLE, Scarlet Trumpet	1.00
HONEYSUCKLE, Everblooming	1.25

PLANT YEAR AROUND BEAUTY

We Offer the Following Arbor-Vitae

American. Everyone is familiar with the flat, lacy foliage of the American Arbor-Vitae. It is one of our native trees. It naturally grows in a height of 40 feet and a spread of 8 to 10 feet, but it can be limited in size by trimming. It grows best in moist locations.

Globe. This dwarf of the American Arbor-Vitae grows to about 3 feet in diameter. The round form is maintained naturally, does not require trimming. Like the American, it grows best in moist locations.

Pyramidal. Here is an Arbor-Vitae that was selected because of its rich green color and slender, erect form. May reach a height of 25 feet; the height can be limited and the growth made more compact by trimming. Undoubtedly the most widely planted Arbor-Vitae used in landscape planting.

Siberian. Because of its extreme hardiness, this Arbor-Vitae was named "Siberian." The dark green foliage is thicker and heavier than those of its parent, the American Arbor-Vitae. It is dense in growth and conical outline. It maintains its normal shape well, but can be trimmed to any desired form. If it is not trimmed it may reach a height of 10 feet.

Description of all Balled and Burlapped Evergreens Priced on Color Pages.

SPRUCE

Black Hills. A robust appearance is characteristic of this handsome Spruce. It is symmetrical, compact and bushy in habit. It is very hardy and is highly resistant to drought. It will do well on a wide variety of soils. A bluish tinge may be seen in the deep green of the foliage. It may reach a height of 40 to 50 feet, averaging about 1 foot a year in new growth.

Colorado Blue. This is probably the most popular ornamental Spruce. It has a symmetrical, conical outline. It is hardy and drought resistant. It grows well in a wide variety of conditions from dry, sandy to rich, moist situations. The color ranges from green to powdery blue. Not all of the trees have the striking blue sheen. The greens and the blues are separated in this price list. The trees may reach a height of 40 feet and a spread of 20 to 25 feet.

PINES

Ponderosa. The Ponderosa Pine is generally accepted as the best large Pine for use in landscape plantings. It sometimes reaches a height of about 60 feet and a diameter of 40 to 50 feet. It is fast growing and adapts itself to a wide variety of conditions.

Mugho. Here is a low growing, dwarf Pine. It is compact and round in shape. The size can be controlled by trimming. The foliage is deep green. It is hardy and will tolerate some shade.

SPREADING JUNIPER

Pfitzer. Probably no Juniper is more widely planted than this low, broad evergreen. It is hardy and does well in a wide variety of soils and exposures. It tolerates partial shade and also does well in full sunlight. It may reach 3 to 4 feet in height and 6 or more feet in diameter; however, it is readily trimmed to desired size. The color is predominantly green although a tinge of blue may be evident. It is extensively used in foundation plantings.

Hetzl. Habit of growth same as Pfitzer in lieu of color.

Savin. Heavy branching gives it compactness, and the spreading habit of growth makes it vase-like in outline. It is usually about as tall as it is broad, sometimes reaching a height of 3 feet and diameter of 4 feet. It is widely used in foundation plantings.

TALL GROWING JUNIPERS FOR LANDSCAPING

Dundee. Attractive coloring and compact, pyramidal habit of growth distinguish this widely planted variety of Red Cedar. The tips of the branches tend to stand upright. Throughout the spring and summer it is bluish green, changing to a purplish plum color for fall and winter. It is very hardy.

Moffett. This is a popular variety of the true Silver Juniper. It is an upright evergreen with attractive light blue foliage. The new growth on the tips of the branches tends to be pendent. Like most Junipers, it can be trimmed or grown naturally. It is very hardy.

Pathfinder. It is believed that this evergreen has the most beautiful silvery blue coloring of all the varieties of the true Silver Juniper. The habit of growth is upright, with a somewhat broader and more bushy base than is found in other varieties of the true Silver. The tips of the branches are of fine texture and tend to be upright in habit. It is hardy.

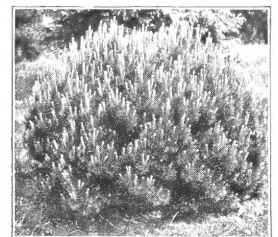

Red Cedar. Beautiful green pyramidal tree. The ideal tree to use in foundation landscaping or as a specimen tree. Very hardy, a native of the Midwest. They are adapted to our soil and temperature.

Silver. This Juniper has the form of the Red Cedar, but it does not grow as large, and has attractive silvery foliage. It is the parent of such beautiful grafted Junipers as the Chandler Blue Juniper, Moffett Juniper, Pathfinder Juniper and Welch Juniper.

Welch. This very handsome Juniper is one of the more recent grafts of the Silver Juniper. Its most attractive quality is the compact, narrow, upright habit of growth. The vertical position taken by the new growth emphasizes the upright form. It has a deeper blue-green color and a more compact growth than other grafted Silver Junipers. It has proven to be very hardy.

Colorado Blue Spruce

Mugho Pine

ROSES-Queen of Flowers

Plant Roses This Spring—Enjoy the Flowers This Summer

Chrysler Imperial. (Plant Pat. No. 1167.) Pictured in color on inside page. **\$2.50 each; 3 or more, \$2.20 each.**

Crimson Glory. Pictured in color on inside page. Beautifully formed buds, long stems, prolific in its bloom. **\$1.50 each; 3 or more, \$1.30 each.**

Diamond Jubilee. (Plant Pat. No. 824.) Double, high-centered flowers of glowing buff-orange, with a touch of gold at base of petals. A.A.R.S. Award for 1948. **\$2.00 each; 3 or more, \$1.75 each.**

Eclipse. Pictured in color on inside page. Open blooms are large, well formed. **\$1.50 each; 3 or more, \$1.30 each.**

Forty-niner. (Plant Pat. No. 792.) The colors are so bright and so startling in their contrast that it is hard to believe they could be present in the same flower. **\$2.50 each; 3 or more, \$2.20 each.**

Helen Traubel. (Plant Pat. No. 1028.) Because of its apricot-pink coloring and perfect flowers, fragrance and vigorous plant, you can't help but like this 1952 winner. **\$2.50 each; 3 or more, \$2.40 each.**

Katherine T. Marshall. (Plant Pat. No. 607.) Large blooms of glowing pink. Fragrant, perfect form, long stems. Vigorous. A beautiful Rose. **\$1.75 each; 3 or more, \$1.55 each.**

Lowell Thomas. (Plant Pat. No. 595.) Canary-yellow, holds its color. A vigorous bloomer with beautiful bud. **\$2.00 each; 3 or more, \$1.55 each.**

Mirandy. (Plant Pat. No. 632.) The huge, 50-petaled, deep crimson flowers open slowly from buds. Aging flowers turn to a deep wine-red color. Very free blooming all season. **\$2.25 each; 3 or more, \$2.00 each.**

Mojave. (Plant Pat. No. 1176.) Dark orange-red color. 20 to 25 petals; sweetly fragrant. The blooms come singly on long, strong stems. Handsome, upright habit and very heavy, leathery foliage. **\$2.75 each; 3 or more, \$2.40 each.**

Nocturne. (Plant Pat. No. 713.) Streamlined buds and glorious flowers of cardinal-red, with darker shadings. **\$2.00 each; 3 or more, \$1.75 each.**

Peace. (Plant Pat. No. 591.) One of the very best. Pictured in color on front page. **\$2.50 each; 3 or more, \$2.20 each.**

President Eisenhower. (Plant Pat. No. 1217.) This is a great red Rose. Its large buds open slowly, are a rich unfading, uniform rose-red of lasting brilliance. **\$2.50 each; 3 or more, \$2.20 each.**

Rex Anderson. (Plant Pat. No. 335.) The popular large white. Prolific and early bloomer. Long, beautifully formed buds, long stems. **\$1.75 each; 3 or more, \$1.55 each.**

Tallyho. (Plant Pat. No. 828.) All-America winner for 1949. An excellent Rose in a combination of two-tone rose with a touch of red. It is a robust grower, free flowering. **\$2.00 each; 3 or more, \$1.75 each.**

Sun Valley. (Plant Pat. No. 1135.) This new yellow Rose is one of the best we have ever seen. **\$2.50 each; 3 or more, \$2.20 each.**

NEW KIND OF ROSE GRANDIFLORA

This is a new classification for Roses now being developed that are in between the Hybrid Teas and Floribundas.

1955 All-America Winner

QUEEN ELIZABETH. Grandiflora. (Plant Pat. No. 1259.) The plants are tall, 3 to 4 feet, upright, vastly vigorous and covered with quantities of handsome pink blooms that are larger than individual Floribunda flowers and with a different type of cluster. Makes Queen Elizabeth a showy, fascinating Rose, infinitely useful and desirable. **\$3.00 each; 3 or more, \$2.65 each.**

PLANT FLORIBUNDA ROSES

These will outbloom anything in the Rose family all summer long.

9 CHOICE FLORIBUNDAS

\$1.50 each; 3 or more, \$1.30 each.

Else Poulsen. Flowers medium size, semi-double, long lasting, bright rose-pink.

Eutin. Very striking, double, rich red flowers produced with Floribunda abundance on vigorous bush.

Floradora. A.A.R.S. Fascinating cinnabar color shaded scarlet and geranium-red. Double blossoms; vigorous.

Goldilocks. (Plant Pat. No. 672.) Rich golden yellow; buds shaped like Hybrid Teas. Abundant bloom.

Improved Lafayette. Medium sized deep glowing red flowers suffused vivid crimson. Blooms profusely, flowers of rose-crimson.

Pinocchio. (Plant Pat. No. 484.) Throughout the season it is covered with immense clusters of perfect little Roses in shades of salmon flushed with gold.

Red Pinocchio. (Plant Pat. No. 812.) A velvety deep red, sometimes with traces of black. Popular in all climates.

World's Fair. (Plant Pat. No. 362.) Deep crimson fading to scarlet. Spicy fragrance. Very free blooming.

Yellow Pinocchio. (Plant Pat. No. 992.) This new member of the Pinocchio family grows 3 feet tall; sturdy bush.

8 MORE HARDY ROSES FOR THE NORTH

BROWNELL AND FLORIBUNDA

Your Choice: \$1.75 each; 3 for \$5.00.

Cedric Adams. The eminent radio commentator, lover of Roses, has placed his name on this sturdy Rose.

Curly Pink. Matchless in combination of size and form of bloom, beauty of cluster; many large, two-toned pink flowers.

Easter Parade. (Plant Pat. No. 1200.) Mass of blooms. A delightful combination of pink, orange and yellow coloring.

Irene of Denmark. (Plant Pat. No. 889.) This Rose is the answer to a long-felt need for a better white.

Lily Pons. White, with pure yellow center; large, graceful flowers of indescribable delicacy; vigorous; free bloomer.

Queen O' The Lakes. Deep velvety red color is this queen of flowers. The queen of all double reds.

Shades of Autumn. An abundant and joyous expression of bicolored beauty: red, yellow and blush flowers.

Valentine. (Plant Pat. No. 1029.) The Rose that heads the list here at Bailey's. The brightest red you will find and it is just always in bloom.

Flowering and Ornamental CRABS AND PLUMS

Add Beauty to Your Lawn and Garden

BECHTEL'S DOUBLE FLOWERING CRAB. Beautiful, fragrant, double pink flowers. Each flower is like a pink Camellia. The ideal tree for small yards.

DOLGO CRAB. The Beautiful White Flowering Crab. Brilliant red fruits. The fruit is very desirable for jelly.

HOPA CRAB. Beautiful deep red blossoms. The small red fruits remain on the tree until autumn.

DOUBLE FLOWERING PLUM (*Prunus triloba*). This fine shrub is covered with pink, Roselike flowers in April and May. It is sometimes known as the "Rose Tree of China." It has colorful glossy brown bark. Height 6 to 8 feet.

RED LEAF PLUM, Newport. A beautiful specimen tree for your yard for color throughout the spring, summer and fall.

PURPLE LEAF PLUM, Cistena. The showy, rich purplish foliage of this Plum is the most striking. The best color development is obtained in full sunlight. Height 4 to 5 feet.

PRICES OF FLOWERING CRABS AND PLUMS

PLANT TREES for COMFORT

BIRCH, Cutleaf Weeping. The drooping branches and the finely cut leaves are attractive. The white bark provides color throughout the year.

BIRCH, Paper. White Birch, or Canoe Birch. The white bark and clear yellow leaves in fall provide showy color. Height 60 feet.

ASH, Green. (White.) Pictured on front page. Height 60 feet.

ASH, Mountain. An attractive ornamental, especially in late summer, when it is covered with clusters of red berries. Height 35 feet, spread 25 feet.

ELM, American. Everyone knows the American Elm. It is a hardy, long lived tree. Height 80 to 100 feet.

ELM, Lake City. This is a grafted form of the American Elm. It is distinguished by symmetrical form and rich foliage.

NEW MORaine LOCUST TREE.

LINDEN. This handsome tree is also known as the Basswood. It is hardy and grows rapidly. Bears clusters of small white and cream colored flowers. Height 75 feet.

MAPLE, Crimson King. (Plant Pat. No. 735.) This beautiful ornamental is a form of the Schwedler Maple that was selected in Europe for its brilliant crimson leaves. The color is retained throughout the summer.

MAPLE, Norway. A good tree for street or lawn specimen planting where good form and shade are needed. Reaches a height of 60 feet.

MAPLE, Silver. Here is a quick growing Maple that is suited where the more hardy and permanent trees are required. Height 75 to 100 feet.

MAPLE, Schwedler. The leaves are an attractive red during the early part of the summer. It is best used as a specimen and should have full sunlight for greatest coloration. Height 40 to 50 feet.

MAPLE, Sugar. This Maple has an oval shape with symmetrically round crown. It will grow under various conditions. In fall the leaves turn from a bright green to showy reds and yellows. Height 80 feet, spread 40 to 50 feet.

POPLAR, Lombardy. Here is a suitable tree for planting in rows. It is quick growing and hardy. Height 60 feet.

POPLAR, Bolleana. A fast growing tree with the Lombardy habit of growth but with more color. The leaves are glossy green above and silvery white beneath. Height 60 feet, spread 6 to 8 feet.

WALNUT, Black (*Juglans nigra*). This native tree is capable of fairly rapid growth. It offers shade, edible nuts and valuable wood. Height 75 to 100 feet, spread 50 to 60 feet.

WILLOW, Niobe Weeping. This quick growing tree is the best of the Weeping Willows. It may be used in rows three and five of the shelter belt. Height 40 feet.

EVERGREENS for Home Gardeners!

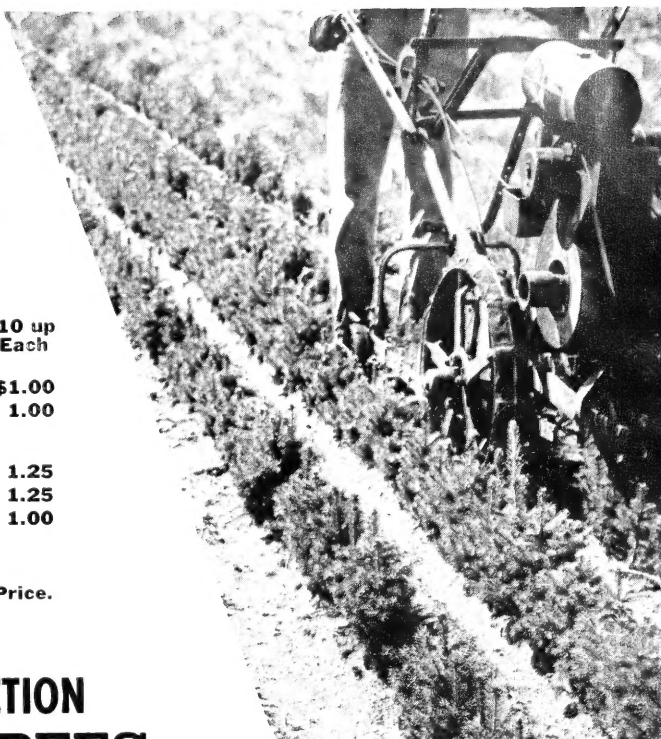

GROW YOUR OWN ORNAMENTAL EVERGREENS

Garden enthusiasts are invited to share in the pleasure of growing Ornamental Evergreens for their own landscape plantings. Home gardeners everywhere have found it interesting and profitable to grow evergreens. An assortment of the smaller sizes of the more popular varieties can be planted in the garden. Upkeep is not a problem because the trees can be cultivated along with the other garden plants. They can be grown until suitable for planting in the permanent landscape.

PLANT A SHELTER BELT FOR WINTER PROTECTION

Save Money on WINDBREAK TREES

• ORDER EARLY •

Ash, Green. Dependable shelter belt trees. Fast growing, long lived, drought resistant. Height 60 feet.
Elm, American. Everyone knows the American Elm. It is hardy and long lived. Height 80 to 100 feet.
Elm, Chinese. Siberian strain of Chinese Elm. Remarkably fast growing. Height 65 feet.
Honeysuckle, Tartarian. It is perfectly hardy. It has red flowers in the spring. Height 10 to 12 feet.

EVERGREEN WINDBREAK BARGAINS!

Evergreen transplants may be set out directly into the windbreak row and cultivated like rows of Corn. Seedling Evergreens should be set in the garden and given special care for two years before resetting into permanent windbreak.

	2-3'	2.25	8.50	14.75	
	3-4'	4.00	16.50	30.00	

Poplar, Lombardy. A suitable tree for rows 3 and 5. Quick growing and hardy. Height 60 feet.
Pea Tree, Siberian (Caragana). Withstands drought and is perfectly hardy. Good for snow catch plantings. Height 12 to 15 feet.
Willow, Golden. Will grow under a variety of conditions. Thrives especially in wet soils. Height 40 feet.
Willow, Laurel. The large, shining leaves form an attractive foliage. Height 20 to 25 feet.
Willow, Niobe Weeping. Best of the Weeping Willows. Height 40 feet.

STANDARD SHELTER BELT PLAN (Recommended by the University of Minnesota)

SPACING

All trees and shrubs planted in the shelter belt should be staggered to fill up the gaps and thereby to more effectively check the wind. The spacing between the rows is shown in the plan above. The distances may be extended by 2 to 4 feet in the main windbreaks (rows 3 to 10) if space is available. The trees or shrubs used in the snow catch (rows 1 and 2) should be planted 4 feet apart in the row; all other trees should be planted 6 feet apart in the row. The trees in rows 3 and 5 may be cut for fuel or posts whenever they begin to crowd the more hardy, long-lived trees in rows 4 and 6.

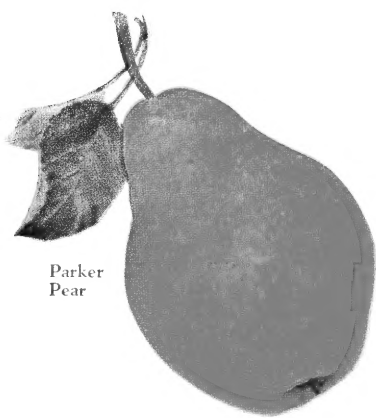

Spruce, Colorado. See description given above.
Spruce, Black Hills. See description given above.
Spruce, Norway. The rapid growth of this Spruce makes it a favorite shelter belt tree. It does well in moist, well drained soils. It will not withstand drought as well as the Black Hills, Colorado or White Spruces. Height 50 to 60 feet.
Spruce, White. Similar in appearance and characteristics to the Black Hills Spruce but a little faster in growth.

Arbor-Vitae, American. You will find this Evergreen tolerant of shade and various soil conditions. It will grow in wet or swampy places where other Evergreens will fail. It is excellent for filling up holes in a shelter belt because it can withstand shade. Height 30 feet.

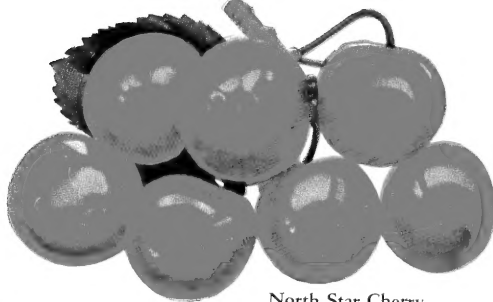

Junipers. Both the Red Cedar and the Silver Cedar are available for shelter belt plantings. They are long lived, shade tolerant, and will withstand a variety of soil conditions. Silver Cedar is similar to the Red Cedar excepting that it is of a silvery color. Height 20 to 30 ft.

Pine, Norway. A very fast grower desirable for shelter belt planting.

Pine, White. This well known Pine is excellent for shelter belt planting; it is easily transplanted, has long life and is capable of rapid growth. Height 70 to 80 feet.
